INTRODUCTION

ABOUT THE PLONK CHALLENGE

THANK YOU FOR BECOMING A PLONK MEMBER AND THANK YOU FOR SUPPORTING OUR WORK WITH THE LENNOX CHILDREN'S CANCER FUND.

PLONK CRAZY GOLF WAS FOUNDED BY A TROOP OF SET DESIGNERS FROM THE FILM INDUSTRY WHO BANDED TOGETHER FOR A COMMON CAUSE... USING THEIR SKILLS TO CREATE THE GREATEST CRAZY GOLF COURSES IMAGINABLE.

IN 2014 WE OPENED OUR FIRST COURSE IN HAGGERSTON, LONDON, BUILT FROM 100% UP-CYCLED MATERIALS RESCUED FROM THE STREETS OF HACKNEY. SINCE THAT INITIAL SUCCESS, WE'VE BEEN CREATING EVER MORE AMBITIOUS COURSES ACROSS THE UK AND EUROPE.

IT'S THIS PASSION FOR MINI GOLF MAKING THAT WE HOPE TO CAN PASS ON TO YOU, SO YOU CAN CREATE MINI GOLF MADNESS IN YOUR HOME!!

EVERY WEEK WE WILL BE PICKING THE MOST CREATIVE AND INGENIOUS DESIGNS TO WIN PRIZES:

MINI GOLF TICKETS
BAR TABS
LIMITED EDITION MERCH

PRIZES!

LENNOX CHILDREN'S CANCER FUND

SINCE THE CHARITY STARTED IN 1992, THEIR MAIN AIM HAS BEEN TO MAKE A POSITIVE DIFFERENCE TO THE LIVES OF CHILDREN DIAGNOSED WITH CANCER. THIS IS DONE BY OFFERING PRACTICAL, FINANCIAL AND EMOTIONAL SUPPORT TO THE WHOLE FAMILY THROUGH THEIR RANGE OF PROJECTS.

THE CARING TEAMS AT THEIR OFFICES ALWAYS GIVE 100% TO ENSURE THAT THE FAMILIES THEY HELP HAVE THE SUPPORT THEY NEED TO GET THROUGH THE PROBLEMS AND STRESSES THAT CANCER BRINGS.

THEY DO NOT HAVE THE COMFORT OF ANY RESERVES LIKE MANY BIGGER CHARITIES DO, SO THE TRUTH IS, THEY JUST DO NOT KNOW IF WE WILL SURVIVE THIS COVID 19 OUTBREAK WITHOUT THE EXTRA HELP WHERE POSSIBLE.

Step 1:
Cut down the middle of both sides of your cereal packet. This design is based on a standard Kellogg's Packet.

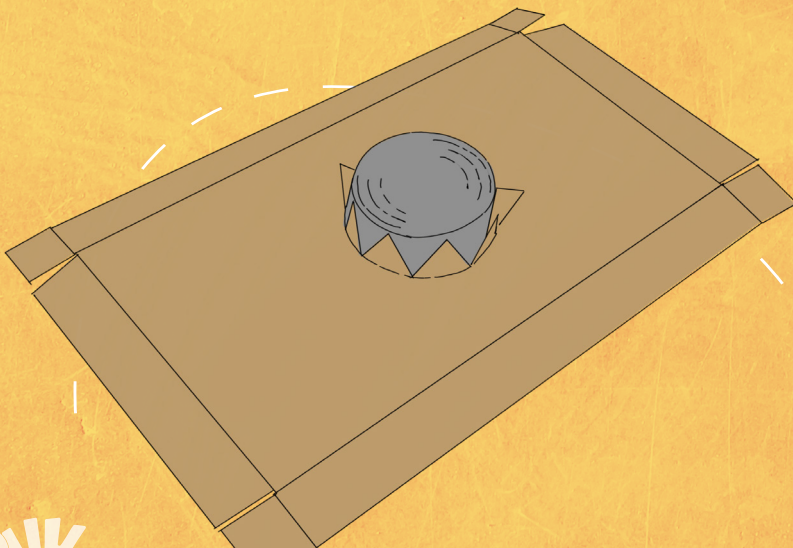

Step 2:
Take 1 half of the box, using the non printed side mark the centre of the box.

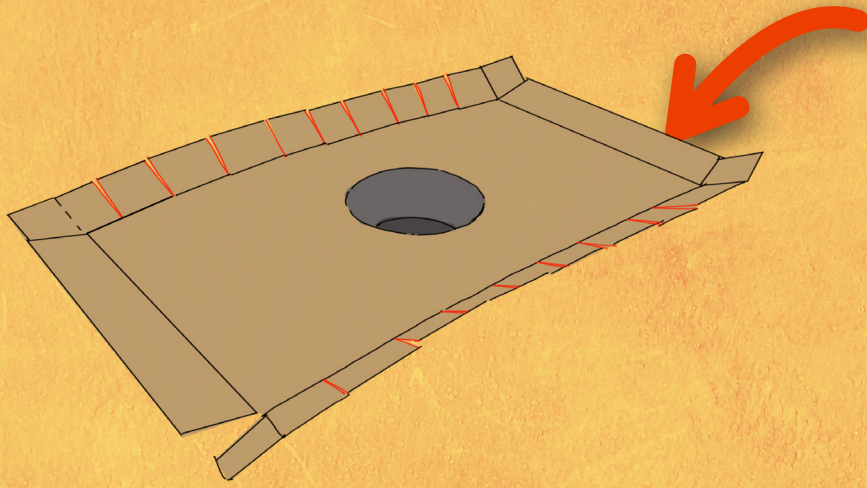

Step 3:
Put your small tuna can on the centre of the box and draw around it.

Step 4:
Now draw lines across the circle so it is divided into 8 triangular segments.

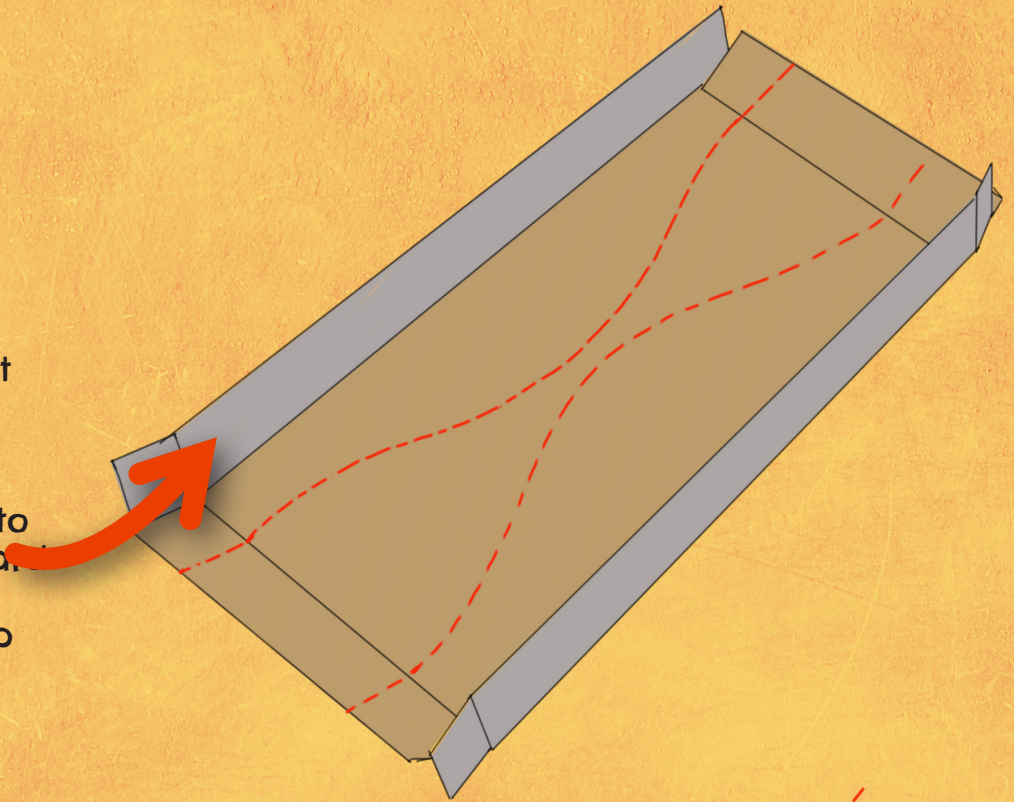

Step 5:
Cut along the lines so you have 8 triangle flaps inside the circle. Now push the tuna can through so it is flat with the cardboard. Stick the 8 flaps around the outside of the can with tape or glue.

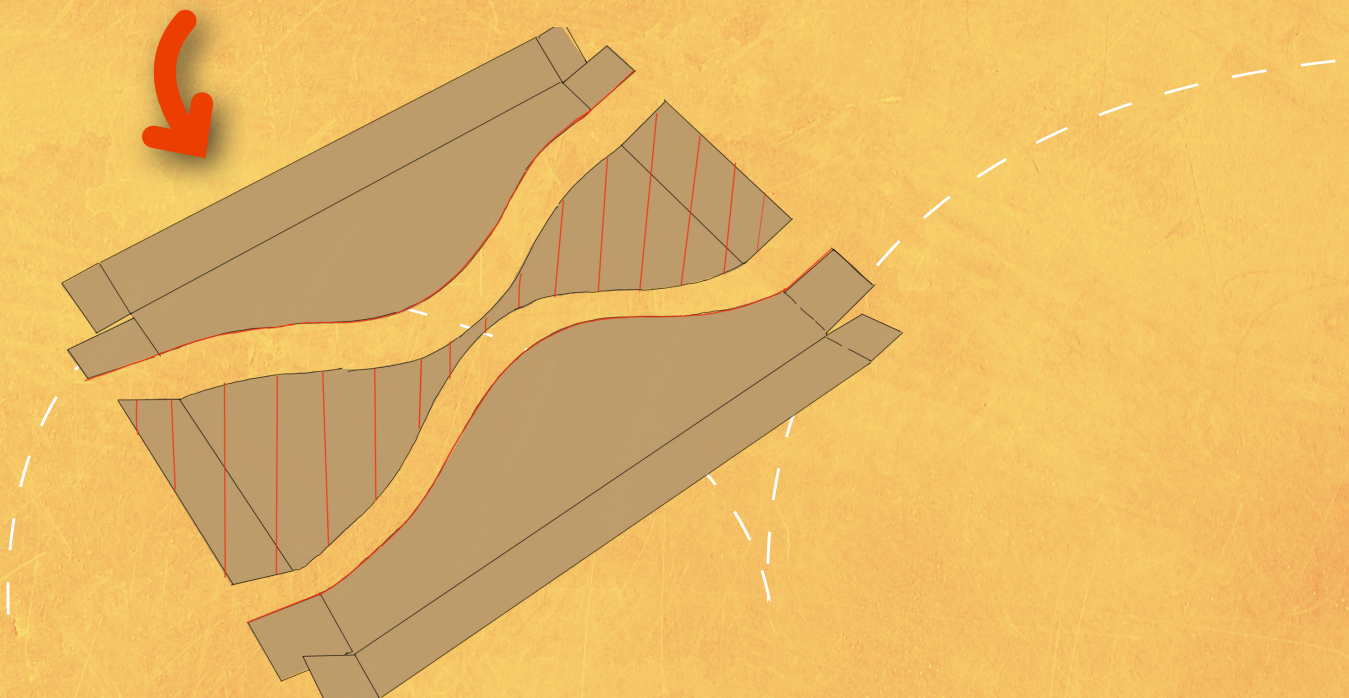

Step 6:
Cut into both sides of the box to the fold line with 2cm gaps so you have lots of square flaps down both sides.

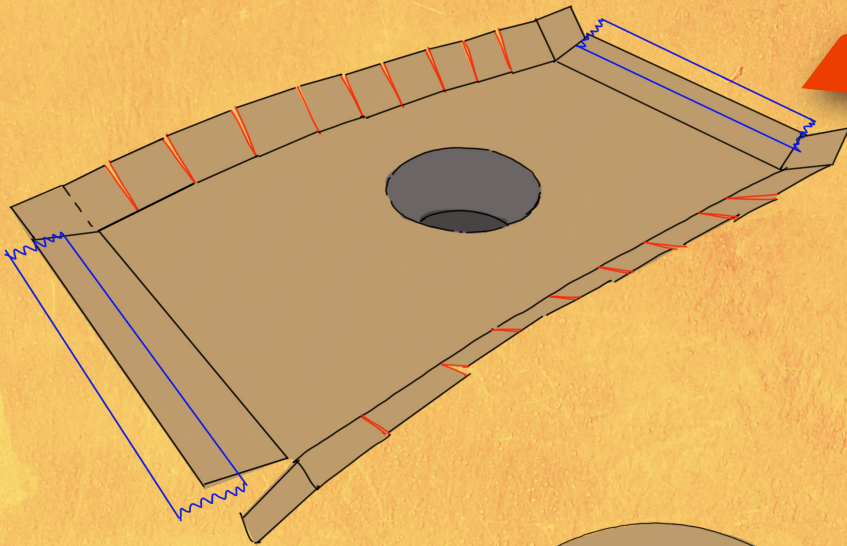

Step 7:
Take the other half of the box. Using our template sheet, draw on a curve to one side and then mirror it so you have a hill shape.

NOTE
Make sure to only do this to the main piece of cardboard, and not the sides. We will need these in the next step

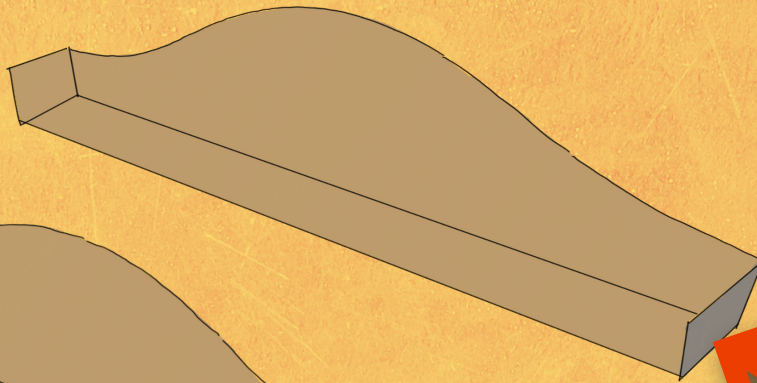

Step 8:
Do this process twice so you have 2 hill shapes.

Step 8:

Take your cardboard with a tin inside and tape both ends to a table, so the cardboard gets a curve like a hill.

Step 9:

Fold the hill shape up along the fold line. Tape the 2 flaps at each end together so that the shape stands up.

Do this to both sides.

Step 10:

Put your hill shaped sides up the the stuck down hill and staple / glue or tape the cut flaps of the main piece to the side pieces.

Step 11:

Now you should have both sides attached you can unstick the hill from the table.

NOTE

You may be able to fold around the last flaps to go on the ends of the hill sides.
